

## Attachment 1

The application is entitled to receive streamlined treatment under the Commission's rules because:

(1) The applicant is not affiliated with a foreign carrier in any market. The applicant is a foreign carrier in Nigeria, but it qualifies for a presumption of non-dominance under § 63.10(a)(3). Specifically, the applicant only began operations as a Nigerian carrier in 2006, and it does not even have a one percent share of either the international transport or local access markets in Nigeria. In addition, Nigeria is a WTO Member country and the applicant also qualifies for a presumption of non-dominance under § 63.10(a)(4) because of the lack of market power demonstrated by its miniscule market share.

(2) The applicant has no affiliation with a dominant U.S. carrier whose international switched or private line services the applicant seeks authority to resell (either directly or indirectly through the resale of another reseller's services).
